

目 录-DIRECTORY-

简议中国铝资源的进口

Brief on China's import of aluminum resources

乘用车悬架系统铝合金应用现状

Application of aluminum alloy on the suspension system of passenger vehicles

铸造工艺对某新型Al-Mn合金初生相的影响

Influence of the casting process on primary phases of a new Al-Mn alloy

Al-5Ti-1B和**Ce**对**5182**铝合金组织和性能的影响

Effects of Al-5Ti-1B and Ce on microstructure and mechanical properties of 5182 aluminum alloy

退火温度对异步轧制铜/铝复合带材组织与性能的影响

Influence of annealing temperatures on the microstructures and properties of asynchronous-rolled Cu/Al composites

基于**PLC**的镁合金厚板搅拌摩擦焊的焊缝组织与性能

Microstructure and properties of the welding joint of magnesium alloy thick plates by PLC-based friction stir welding

铝箔卷取轴斜楔角度的优化

Optimization of the wedge angle of the winding shaft for aluminum foils

6082铝合金有关工艺参数对型材性能的影响分析

Effect of technological parameters on properties of 6082 aluminum alloy profiles

高速列车承载用**7N01**铝合金型材挤压模具的数值模拟

Numerical simulation of the extrusion die for 7N01 aluminum alloy profiles used in high speed trains

化学成分对**2024**铝合金挤压圆棒粗晶环的影响

The influence of chemical compositions on peripheral coarse grains of the extruded round bar of 2024 aluminum alloy

2A11铝合金螺旋桨锻件缺陷的产生原因及预防措施

Cause of ht defects of 2A11aluminum alloy forgings for propellers and their prevention measures

拉伸工艺参数对**AZ31**镁合金塑性的影响

Research on improving plasticity of AZ31magnesium alloy by varying the tensile process

真空热压压强对碳纳米管增强铝基复合材料性能的影响

Influence of vacuum hot pressing pressure on the properties of Al composites reinforced with carbon nanotubes

焊接参数对阻燃镁合金搅拌摩擦焊接头性能的影响

Effect of welding parameters on the joint performance of ignition-proof magnesium alloy by friction stir welding

铝合金/不锈钢电阻点焊工艺与接头性能研究

Study on resistance spot welding and performances of the joint between aluminum alloy and stainless steel

Si和**Mg**对**Al-Cu**系合金含油轴承压溃强度与含油率的影响

Effect of Si and Mg additions on crushing strength and oil content of Al-Cu oil bearing
