

目 录-DIRECTORY-

全球注册变形铝合金状况简介

Analysis of globally registered wrought aluminum alloy

上海特斯拉汽车公司投产与镁在汽车上应用

Launch of Shanghai Tesla Motors Corporation and application of magnesium on automobiles

现代大型高精铝板带热轧生产线工艺设计特点分析

Analysis of process design characteristics of modern large-scale high-precision aluminum strip hot rolling line

脉冲电场对 6181 铝合金凝固组织的影响

Effect of pulsed electric field on solidification structure of 6181 aluminum alloy

氩气除氢对 5083 铝合金铸锭高温力学性能的影响

Effect of argon dehydrogenation on high temperature mechanical properties of 5083 aluminum alloy ingot

辊底式淬火炉淬火工艺对 7075 铝合金板材力学性能及板形的影响

Effect of quenching process of roller hearth furnace on mechanical properties and shape of 7075 aluminum alloy sheet

基于遗传算法的 6063 铝合金矩形管材挤压模具的结构优化

Structure optimization of 6063 aluminum alloy rectangular tube extrusion die based on genetic algorithm

6082 铝合金模锻件阳极氧化表面小黑点缺陷分析

Analysis of small black spots on anodized surface of 6082 aluminum alloy die forgings

Na₂B₄O₇ 浓度对 5A06 铝合金微弧氧化膜层特性的影响

Effect of Na₂B₄O₇ concentration on properties of micro-arc oxidation coating on 5A06 aluminum alloy

Al-4.5Cu-1.5Mg-0.5Mn 合金固溶时效工艺试验研究

Experimental study on solution aging process of Al-4.5Cu-1.5Mg-0.5Mn alloy

6201 铝合金线快速时效工艺试验研究

Experimental study on rapid aging process of 6201 aluminum alloy wire with high strength and high conductivity

特殊固溶时效处理对 ADC12 铝合金组织和性能的影响

Effect of special solution and aging treatment on microstructure and properties of ADC12 aluminum alloy
